1 1/2" •	20	86
2" •	20	160

• Standard bore / Passaggio standard

Operating temperature
Temperatura d'esercizio

- 20°C + 120°C

- Bidirectional ball valve
- 100% Testing of the seals inwards and outwards on the entire batch produced
- Body and coupling made of brass CW617N in accordance with EN 12165, hot moulded, sandblasted and nickelplated prior to processing to eliminate the nickel from the surfaces that could come into contact with the fluid, while maintaining an appreciable aesthetic and optimum protection against the elements
- Control rod inserted from the inside (anti-bursting pin and tamperproof) made of CW614N brass in accordance with EN 12164 with double O-ring for maximum security
- Brass conforms to DIN 50930-6; D.M. 174; Directive 2011/65 / EC (ROHS II)
- O-ring NBR
- Diamond and chrome plated ball
- PTFE pure ball seats, FDA approved
- Accommodations PTFE designed for easy maneuvering

- Valvola a sfera bidirezionale
- Collaudi al 100% delle tenute verso l'interno e verso l'esterno sull'intero lotto prodotto
- Corpo e manicotto in ottone CW617N conforme EN 12165, stampati a caldo, sabbati e nichelati prima della lavorazione per eliminare il nichel sulle pareti potenzialmente a contatto con il fluido, pur mantenendo un' apprezzabile estetica e un'ottimale protezione contro gli agenti atmosferici
- Asta di manovra inserita dall'interno (antiscoppio e antimanomissione) in ottone CW614N conforme a EN 12164 con doppio O-ring per la massima sicurezza
- Ottone conforme a: DIN 50930-6; D.M. 174; Direttiva 2011/65/EC (ROHS II)
- O-ring in NBR
- Sfera diamantata e cromata a spessore
- Guarnizioni sfera in PTFE puro, approvato FDA
- Alloggi PTFE progettati per facilitare la manovra
